

Crown Vision Center Is Expanding and Looking To Add New Optometrists

Areas: Missouri and Illinois

For a limited time, we are offering a one-time only sign-on bonus.

Company and Job Summary:

Crown Vision is successfully meeting the challenges within the continuously evolving field of optometry and looking for caring practitioners with advanced technical skills. At Crown Vision we offer a rewarding optometry career with opportunities for advancement. Crown Vision has served the St. Louis metropolitan area and mid-Missouri for over 50 years. At the same time, we offer our growing patient base fully integrated optometric and medical-surgical eye care with the most advanced technology in the industry. We are looking for optometrists interested in giving the best possible patient care and developing a practice with all the tools provided to succeed. Crown Vision Center has grown to 29 locations and we are continuously looking for opportunities to open offices and expand our market share. Each of our offices is staffed with highly trained associates that complement our vision, mission & values.

Our optometrists perform comprehensive eye exams, diagnose and treat ocular pathology, co-manage cataract and refractive surgery and fit contact lenses. Our patient's eyewear options include established fashion frame brands with remarkable history and quality. Each optometrist is provided a dedicated optical technician who performs preliminary functions that allow for the optimum patient care, while assisting the optometrist. Our offices utilize the latest CMS-compliant electronic health record keeping systems. In addition, Crown Vision patients have access to our mobile diagnostic services, ophthalmology center of excellence and ambulatory surgery center for medical-surgical procedures.

Position Requirements:

Crown Vision Center has excellent opportunities for full-time optometrists to work in well established offices in the Missouri/ Illinois area. The successful optometrist at Crown Vision Center will be proficient in the following areas of practice:

- Comprehensive exams
- Pre and post-operative examinations for cataract surgery co-management
- Pre and post Lasik/PRK examinations for co-management evaluations and patient care
- Prescribe and fit contact lenses with ease and confidence
- Successful in making treatment plans and accomplishing goals
- Proficient in utilizing new technology
- Flexibility to work in multiple locations when needed

Current Practice Locations Available:

Mid-town St. Louis

Alton, IL

O'Fallon, IL

Mid Missouri (Jeff City/ Columbia/Lake of the Ozarks)

North County, St. Louis

Competitive Advantage:

Crown Vision offers a competitive base salary, performance based incentives, fringe benefits, 401K Program/match, and a signing bonus. We offer a culture that believes in family, people, service, responsiveness and values.

Qualifications:

- Possess a current Illinois and/or Missouri OD license and/or ability to obtain a professional optometry license within Missouri or Illinois

Travel:

Depending on the location of interest, local travel may be required.
